5. Flip Math Sheet

Use this before buying for resale:

Expected sell price: \$ _

Tax/shipping/travel: \$

Marketplace fee: \$ _

Shipping to buyer: \$

Payment fee: \$

Expected profit: \$ _____

If the real profit is not worth the time/risk, pass.

6. Resale Exit Plan

Possible Exit Channels

 - ☐ Include timestamp photo
 - ☐ State condition honestly
 - ☐ State shipping/payment terms clearly
 - ☐ Keep communication professional
-
-

7. Accessory Opportunity Checklist

If you own the watch or can inspect one:

- ☐ Measure case width at bracelet/strap connection
- ☐ Measure pin/screw width
- ☐ Measure case curvature

- ☐ Photograph side profile
- ☐ Photograph underside
- ☐ Photograph strap connection close-up
- ☐ Note whether the strap/bracelet is removable
- ☐ Note tools required

These measurements help accessory makers build better aftermarket bracelets, straps, protectors, and cases.

8. Launch Day Rule

Move fast, but do not move blind.

The goal is not to buy because everyone is loud.

The goal is to buy when the numbers, authenticity, and exit plan make sense.
